Stuart Hilston

Apologies.

Roger Ball
Paul Bowen
Mark Ryan
Chris George
Diana Hilton Jones
Stuart Nicholls

AIM OF MEETING

To further discuss specification options for a new pavilion facility on the Rec'.

DISCUSSION POINTS

- Roger Ball and Paul Bowen could not make the meeting but had pre-circulated some information on Chiersley and Cubblington pavilions. This and any other information gathered is to be discussed at the next meeting.
- Roger Hawkins tabled some prefabrication options from two companies one which was a design and build facility. It was felt important to get a realistic costing for a system build option which included services, groundwork's and any project management which would otherwise be extra to this approach.
- Ambrose McGinn tabled the original design plan for Cubblington and the National Lottery design guidelines for these types of buildings. These would provide useful reference documents.
- A more detailed design was tabled and discussed with amendments made following comments from the meeting on potential usage. This design should allow more precise costing to be ascertained from potential suppliers.
- Ambrose McGinn reported on his review of the original conveyance of the recreation ground which would allow for the development of the pavilion as it satisfies the requirement to provide facilities for the 'benefit and the enjoyment of the people of Oving'.
- The potential involvement of AVDC in design and / or fundraising was discussed. Further investigation is required and Laurie Johnson at BALC together with Ian Barham at AVDC Laisure will be contacted for information/ input.
- It was agreed that whilst progress is being made further information is required to get a clear understanding of costs which would then lead to consultation with the village and users of the Rec ground.

AGREED ACTIONS

- RB and PB to report back at next meeting re information on other local amenities visited.
- RH to follow up design and build system build option with a view to a site visit from company identified.
- JP to contact Ian Barham, AVDC, AMcG to contact Laurie Johnson, BALC.

NEXT MEETING

Monday 21st November 8.00pm Reading Room
